

Appendix Table 1. Basic statistics of all variables uses in regression in 1996-2009.

Variable	Description	Unit	Mean	Std. Dev.
Export	the export of honey from China	Million US\$	5.3	10.3
GDP	real GDP of importing country	Billion US\$	1550.8	2505.0
Production	honey production in China lagged one year	1000 tons	282.6	66.6
Distance	the bilateral distance between capital cities of China and the importing country	Kilometer	6566.7	3094.9
Tariff	simple average import tariff rates imposed by importing countries on honey from China	%	33.8	62.6
Chloromycetin	the MRL of Chloromycetin on honey imposed by importing countries	ppb	4.3	4.6

the number of samples is 224. Average values of chloromycetin were 9.38 ppb in 2000 and 0.30 ppb in 2009.
