

## Appendix A

**Fig S1.** The amplification products of genomic *RsFLC* DNA and the *RsFLC* promoter with nested PCR. **A:** The amplification product of the genomic DNA of 'NauDY13' (Lane 1) and 'Naulu127' (Lane 2). **B,** **C:** The nested secondary PCR amplification products. Genomic DNA of 'NauDY13' (**B**) and 'Naulu127' (**C**) were digested with *Dra*I (Lane 3, 7), *Eco*RV (Lane 4, 8), *Ssp*I (Lane 5, 9), or *Pvu*II (Lane 6, 10). M<sub>1</sub>: DL2000 DNA ladder, M<sub>2</sub>: DL2000 plus DNA ladder.
