Appendix B Relative transcript levels of *Arabidopsis* homologous gene of *GmBIN2*, *AtBIN2*, in transgenic and WT *Arabidopsis*.

Relative expression of *AtBIN2* was examined by qRT-PCR analysis. Transcript levels were normalized against the *Arabidopsis* reference gene *Actin8*. The data are the means \pm SD of three replicates, and asterisks indicate a significant difference (*P<0.05; **P<0.01).
