

Appendix B HPLC–MS/MS parameters for imidacloprid analysis.

| Compound | Retention time (min) | Tube Lens (V) | Quantifying ions | Qualifying ions | Collision energy (V) | Ionization mode |
|--------------|----------------------|---------------|------------------|-----------------|----------------------|-----------------|
| imidacloprid | 1.10 | 71 | 256/175 | 256/209 | 17;16 | positive |
