

Appendix A: Dominant phylum in bulk soil and rhizosphere under compost (Com), biocompost (Bio), chemical fertilizer (Che) and non-fertilized (Non) treatments at four sampling times (seedling, jointing, trumpet mouth and tasseling).

Appendix B: Shannon (a) and Chao1(b) in bulk soil and rhizosphere under compost (Com), biocompost (Bio), chemical fertilizer (Che) and non-fertilized (Non) treatments at four sampling times (seedling, jointing, trumpet mouth and tasseling).

Appendix C: Rhizospheric genera enriched at different magnitudes of the retrieved PMBs.
